Navigating the Complexities of HealthTech

Building healthcare software isn't like building any other SaaS product. We work with our clients, keeping in mind:

Compliance Requirements

HIPAA, HITECH, FDA, Cures Act—we build with compliance from day one

Healthcare User Experience

Crafting impactful experiences for patients, providers, and payers

PHI Data Security

Healthcare-grade encryption (in transit & at rest), audit trails, and enterprise-level cloud security

Scalable Architecture

Built for scale, with low tech debt and cost-efficient cloud usage

OUR HEALTHTECH EXPERTISE

Check our services for a wide range of the HealthTech industry.

Custom Healthcare App Development

Codebridge develops custom web and mobile apps focused on exceptional security, performance, and usability.

Medical Big Data and Analytics

The data plays a key role in HealthTech. We ensure its proper storage and management, so you can derive valuable insights.

Order an estimate →

Integrations with Third-Party Services

We integrate your existing software with services and tools for optimized patient management, medical records, and more.

Share your idea →

EHR/EMR Systems Development

Improve your patient experience with custom-built EHR and EMR systems for medical records and patient management.

Leave a request →

Telehealth App Development

Modern medicine is remote. If you've got a telehealth application idea in mind, we'll help you implement it with robust and secure technologies.

AI-Powered Solutions for Enhanced Healthcare Services

Predictive Analytics for Patient Care

Utilizing data to forecast health outcomes and personalize patient care strategies. This helps in optimizing treatment plans and preventing adverse events. It also allows for better resource allocation and more targeted interventions, leading to improved health management.

AI Agents for Healthcare Operations

AI Integration in Medical Research

Conversational Chat and Voicebots

AI-Powered Automation of Administrative Tasks

Healthcare Software Security Standards and Certifications

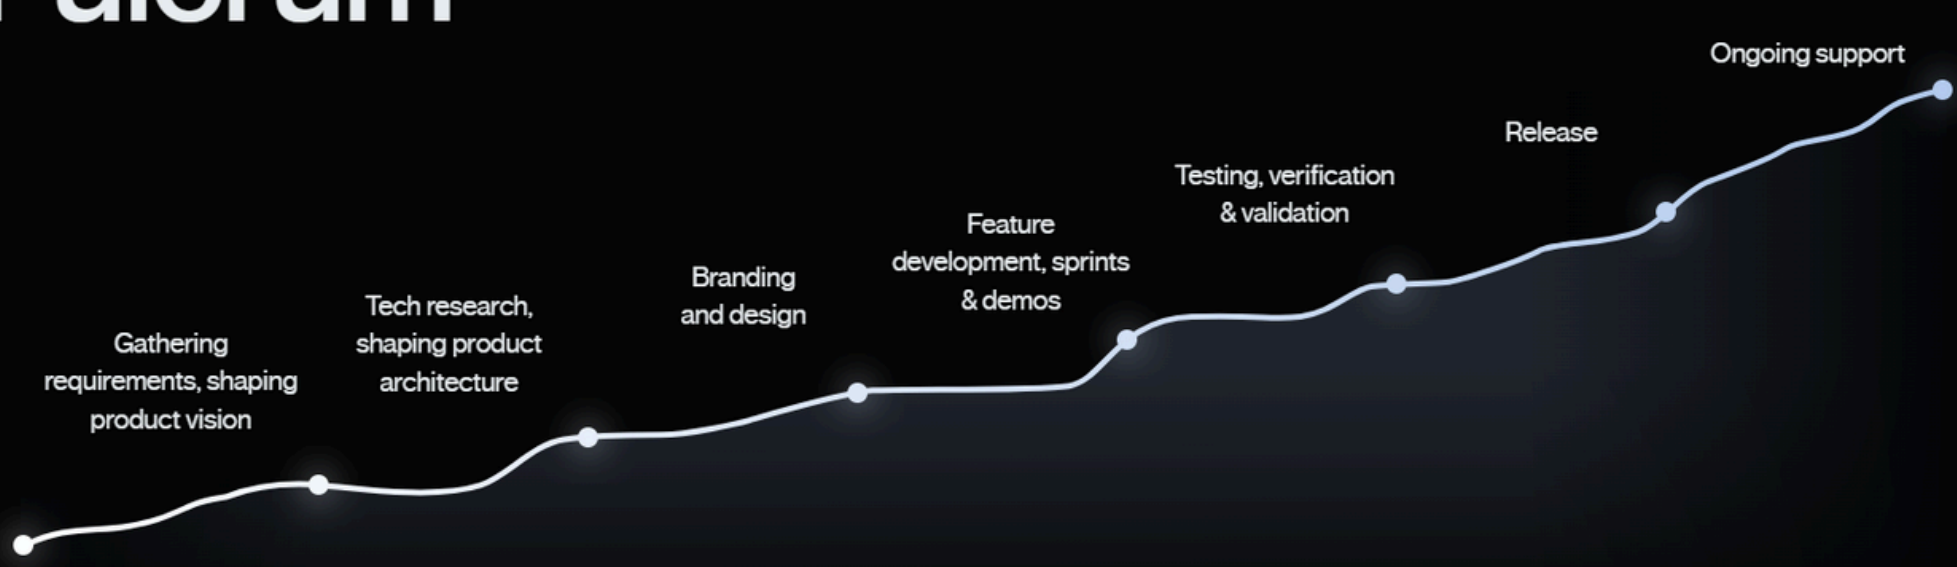

SoluteLabs recognizes the critical importance of compliance within the healthcare domain.

We are dedicated to helping our clients navigate and adhere to stringent US regulatory requirements, such as HIPAA, HITRUST, HITECH Act, FDA, and the ONC Cures Act Final Rule.

Health Tech Development services at Fulcrum

Fulcrum is a Healthtech focused design and development agency. We excel in building apps in the following fields.

HealthTech Development Process

We use a development lifecycle to build custom solutions that streamline logistics, optimize workflows, and give visibility across transport and supply chains

Discovery phase

Dedicated team

Staff Augmentation

Define needs

Solution design

Delivery setup

Development

Define needs

We analyze your logistics process, operating model, and target users to define requirements, goals, and KPIs. Our team identifies efficiency and cost drivers to ensure your product delivers measurable results and aligns with your business vision.
